

## Eco-committee

*'Alone we can do so little, together we can do so much...'*

### Mansel Park Primary & Nursery School

#### Eco Committee Blog update

**Date:** Friday 19th May 2023

Minutes:

#### Update on agreed actions from last meeting:

Over the past few weeks, every year group has dedicated themselves to tending their vegetable patches, and the fruits of their labour are finally starting to show. Among their various plantings, Year 6 has also added courgettes to their own dedicated patch.

As the scorching weather persists, we have been diligently watering our beloved tree, donated to us by the mayor. Witnessing its remarkable growth since its initial planting fills us with anticipation. We eagerly await the continuous progress of the tree as it grows over the years. In fact, our departing Year 6 students are already making plans to revisit and witness its tremendous growth. We have also used our Jubilee pebbles to help separate out the planters so that different crops grow in different sections.

Looking ahead, our eco committee is brimming with enthusiasm for the upcoming gardening afternoon next term. They have been actively engaged in lively discussions and meticulous planning sessions to determine the ideal location and design for the parent allotment. The procurement of top soil has been successfully arranged, and the children have meticulously mapped out the beds for the allotment.

#### Agreed actions:

- SLT discussion regarding delivery and planting bed walk through with CF
- Great Gardening day update/blog

Next meeting: Friday 9<sup>th</sup> June 2023
